

# Caffeine 10% — Paullinia cupana (guarana)

*Paullinia cupana* · Sapindaceae

Standardised extract

## 1. Product identification

|                         |                                                               |
|-------------------------|---------------------------------------------------------------|
| Product name            | Caffeine 10% — Paullinia cupana (guarana)                     |
| Botanical name          | <i>Paullinia cupana</i> (syn. <i>Paullinia brasiliensis</i> ) |
| Plant family            | Sapindaceae                                                   |
| Common names            | Guarana                                                       |
| Product form            | Standardised extract                                          |
| Product code (SKU base) | WH-C10-PC                                                     |

## 2. Composition and identifiers

**INCI:** Paullinia Cupana Extract

| INCI / COMPONENT         | FUNCTION             | CAS | EC | PROPORTION |
|--------------------------|----------------------|-----|----|------------|
| Paullinia Cupana Extract | Botanical ingredient | —   | —  | 100 %      |

INCI status: INCI by naming convention (not in CosIng)

Where more than one CAS number is shown, the botanical substance is registered under several CAS numbers (e.g. EINECS and TSCA variants); all refer to the same INCI name.

## 3. Manufacturing

|                 |                                                                          |
|-----------------|--------------------------------------------------------------------------|
| Process         | Extraction and purification to a standardised marker content             |
| Standardisation | Caffeine 10% (marker content; method on COA)                             |
| Additives       | No added colours, fragrance or preservatives unless stated on the label. |

## 4. Typical properties

|                     |                                                                           |
|---------------------|---------------------------------------------------------------------------|
| Physical state      | Solid (powder)                                                            |
| Appearance / colour | Characteristic of the plant material; may vary naturally between harvests |
| Odour               | Characteristic                                                            |
| Particle size       | 80–100 mesh                                                               |

Typical values describe the product type and are not a specification. Batch-specific results (assay, moisture, microbiology, heavy metals as applicable) are given on the Certificate of Analysis, available on request.

## 5. Applications and use

|              |                                                                |
|--------------|----------------------------------------------------------------|
| Applications | Functional food, Herbal tea & infusions, Skincare, Supplements |
|--------------|----------------------------------------------------------------|

|                            |                                                                                                 |
|----------------------------|-------------------------------------------------------------------------------------------------|
| <b>Markets</b>             | Cosmetics & personal care, Food & beverage, Nutraceuticals                                      |
| <b>Suggested use level</b> | Use according to the formulation and applicable food-supplement, cosmetic or other regulations. |

The formulator is responsible for confirming suitability, stability and regulatory compliance of the finished product in the intended market. Not intended for direct medicinal use.

## 6. Packaging, storage and shelf life

|                   |                                                                                                                                                                                 |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Pack sizes</b> | 100 g, 500 g, 1 Kg, 5 Kg, Sample — bulk and custom quantities on request                                                                                                        |
| <b>Storage</b>    | Store in tightly closed original containers in a cool (below 25 °C), dry, well-ventilated place, away from direct sunlight, moisture, strong odours and incompatible materials. |
| <b>Shelf life</b> | 24 months from the date of manufacture in unopened original packaging stored as recommended.                                                                                    |

## 7. Documentation and quality

|                                |                                                                                 |
|--------------------------------|---------------------------------------------------------------------------------|
| <b>Safety Data Sheet</b>       | SDS-WH-C10-PC — available for download on the product page                      |
| <b>Certificate of Analysis</b> | Batch-specific COA available on request                                         |
| <b>Other documents</b>         | Allergen, IFRA, origin and other statements on request, subject to availability |
