

# Chana Dal Exfoliating Powder

*Cicer arietinum* · Fabaceae

Botanical exfoliant

## 1. Product identification

|                          |                                                                                                                                                                               |
|--------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Product name             | Chana Dal Exfoliating Powder                                                                                                                                                  |
| Botanical name           | <i>Cicer arietinum</i> (syn. <i>Cicer album</i> , <i>Cicer arientinum</i> , <i>Cicer arientinum</i> , <i>Cicer edessanum</i> , <i>Cicer grossum</i> , <i>Cicer physodes</i> ) |
| Plant family             | Fabaceae                                                                                                                                                                      |
| Common names             | Gram Flour, Chana Dal, Bengal Gram, Chick Pea, Chickpea, Garbanzo                                                                                                             |
| Indian / Ayurvedic names | हरभरा                                                                                                                                                                         |
| Product form             | Botanical exfoliant                                                                                                                                                           |
| Product code (SKU base)  | EXF-CHANA-DAL                                                                                                                                                                 |

## 2. Composition and identifiers

| INCI / COMPONENT          | FUNCTION             | CAS | EC | PROPORTION |
|---------------------------|----------------------|-----|----|------------|
| — (no INCI name assigned) | Botanical ingredient | —   | —  | —          |

INCI status: Not applicable (no cosmetic INCI listed)

Where more than one CAS number is shown, the botanical substance is registered under several CAS numbers (e.g. EINECS and TSCA variants); all refer to the same INCI name.

## 3. Manufacturing

|           |                                                                          |
|-----------|--------------------------------------------------------------------------|
| Process   | Dried and milled / ground                                                |
| Additives | No added colours, fragrance or preservatives unless stated on the label. |

## 4. Typical properties

|                     |                                                                           |
|---------------------|---------------------------------------------------------------------------|
| Physical state      | Solid (powder)                                                            |
| Appearance / colour | Characteristic of the plant material; may vary naturally between harvests |
| Odour               | Characteristic                                                            |
| Particle size       | 100–200 mesh                                                              |

Typical values describe the product type and are not a specification. Batch-specific results (assay, moisture, microbiology, heavy metals as applicable) are given on the Certificate of Analysis, available on request.

## 5. Applications and use

|              |                     |
|--------------|---------------------|
| Applications | Perfumery, Skincare |
|--------------|---------------------|

|                            |                                                                                                                                     |
|----------------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| <b>Markets</b>             | Cosmetics & personal care                                                                                                           |
| <b>Suggested use level</b> | Use according to the formulation; typical inclusion in cosmetics 1–10 %, in food and supplements as permitted by local regulations. |

The formulator is responsible for confirming suitability, stability and regulatory compliance of the finished product in the intended market. Not intended for direct medicinal use.

## 6. Packaging, storage and shelf life

|                   |                                                                                                                                                                                 |
|-------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Pack sizes</b> | 225 g, 1 kg, 5 kg — bulk and custom quantities on request                                                                                                                       |
| <b>Storage</b>    | Store in tightly closed original containers in a cool (below 25 °C), dry, well-ventilated place, away from direct sunlight, moisture, strong odours and incompatible materials. |
| <b>Shelf life</b> | 24 months from the date of manufacture in unopened original packaging stored as recommended.                                                                                    |

## 7. Documentation and quality

|                                |                                                                                 |
|--------------------------------|---------------------------------------------------------------------------------|
| <b>Safety Data Sheet</b>       | SDS-EXF-CHANA-DAL — available for download on the product page                  |
| <b>Certificate of Analysis</b> | Batch-specific COA available on request                                         |
| <b>Other documents</b>         | Allergen, IFRA, origin and other statements on request, subject to availability |
