

# Guggul — 180-Day Aged Botanical Oil

*Commiphora wightii* · Burseraceae

Aged botanical oil   Oil-soluble   INCI listed in EU CosIng

## 1. Product identification

|                          |                                                                                          |
|--------------------------|------------------------------------------------------------------------------------------|
| Product name             | Guggul — 180-Day Aged Botanical Oil                                                      |
| Botanical name           | <i>Commiphora wightii</i> (syn. <i>Commiphora mukul</i> , <i>Commiphora roxburghii</i> ) |
| Plant family             | Burseraceae                                                                              |
| Common names             | Guggul, Guggal, Gugul, Maishakshi, Gulgulu, Guggul Gum                                   |
| Indian / Ayurvedic names | गुग्गुलु                                                                                 |
| Plant part used          | Resin                                                                                    |
| Product form             | Aged botanical oil                                                                       |
| Country of origin        | India                                                                                    |
| Product code (SKU base)  | 10186-HRBC-GUGGU                                                                         |

## 2. Composition and identifiers

**INCI:** Commiphora Mukul Resin Extract, Simmondsia Chinensis (Jojoba) Seed Oil, Sesamum Indicum (Sesame) Seed Oil

| INCI / COMPONENT                       | FUNCTION           | CAS        | EC | PROPORTION |
|----------------------------------------|--------------------|------------|----|------------|
| Commiphora Mukul Resin Extract         | Botanical extract  | 93165-11-8 | —  | —          |
| Simmondsia Chinensis (Jojoba) Seed Oil | Carrier / base oil | 90045-98-0 | —  | —          |
| Sesamum Indicum (Sesame) Seed Oil      | Carrier / base oil | 8008-74-0  | —  | —          |

EU CosIng reference no.: 55675, 58617, 78835 · INCI status: Verified in CosIng

Where more than one CAS number is shown, the botanical substance is registered under several CAS numbers (e.g. EINECS and TSCA variants); all refer to the same INCI name.

## 3. Manufacturing

|                     |                                                                          |
|---------------------|--------------------------------------------------------------------------|
| Process             | Cold infusion in carrier oil, aged                                       |
| Ageing / maturation | 180 days                                                                 |
| Additives           | No added colours, fragrance or preservatives unless stated on the label. |

## 4. Typical properties

|                     |                                                                           |
|---------------------|---------------------------------------------------------------------------|
| Physical state      | Liquid                                                                    |
| Appearance / colour | Characteristic of the plant material; may vary naturally between harvests |
| Odour               | Characteristic                                                            |

|                    |                                                                    |
|--------------------|--------------------------------------------------------------------|
| <b>Solubility</b>  | Oil-soluble                                                        |
| <b>Flash point</b> | Typically > 200 °C (vegetable oils; not determined for this batch) |

Typical values describe the product type and are not a specification. Batch-specific results (assay, moisture, microbiology, heavy metals as applicable) are given on the Certificate of Analysis, available on request.

## 5. Applications and use

|                                |                                                                                                                              |
|--------------------------------|------------------------------------------------------------------------------------------------------------------------------|
| <b>Applications</b>            | Hair care, Perfumery, Skincare                                                                                               |
| <b>Markets</b>                 | Cosmetics & personal care                                                                                                    |
| <b>Traditional use systems</b> | Ayurvedic                                                                                                                    |
| <b>Suggested use level</b>     | Typical use level in cosmetics 1–10 % (oil-soluble and infused oils up to 100 % of the oil phase); carrier oils up to 100 %. |

The formulator is responsible for confirming suitability, stability and regulatory compliance of the finished product in the intended market. Not intended for direct medicinal use.

## 6. Packaging, storage and shelf life

|                   |                                                                                                                                                                                                      |
|-------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| <b>Pack sizes</b> | 225 g, 1 Kg — bulk and custom quantities on request                                                                                                                                                  |
| <b>Storage</b>    | Store in tightly closed, well-filled original containers in a cool (below 25 °C), dry, dark place away from heat, oxidising agents and direct sunlight. Butters and waxes may soften above 25–35 °C. |
| <b>Shelf life</b> | 18–24 months from the date of manufacture in unopened original packaging stored as recommended. Infused and oil-soluble extracts: 12–18 months.                                                      |

## 7. Documentation and quality

|                                |                                                                                 |
|--------------------------------|---------------------------------------------------------------------------------|
| <b>Safety Data Sheet</b>       | SDS-10186-HRBC-GUGGU — available for download on the product page               |
| <b>Certificate of Analysis</b> | Batch-specific COA available on request                                         |
| <b>Other documents</b>         | Allergen, IFRA, origin and other statements on request, subject to availability |
