

[TH] Sophora Extract (Rutin ≥95%) - Sophora japonica

*Styphnolobium japonicum* · Fabaceae

Extract powder    Water-dispersible    INCI listed in EU CosIng

1. Product identification

|                         |                                                                                                             |
|-------------------------|-------------------------------------------------------------------------------------------------------------|
| Product name            | [TH] Sophora Extract (Rutin ≥95%) - Sophora japonica                                                        |
| Botanical name          | <i>Styphnolobium japonicum</i> (syn. <i>Sophora japonica</i> )                                              |
| Plant family            | Fabaceae                                                                                                    |
| Common names            | Sophora, Japanese Pagoda Tree, Chinese Scholar Tree, Chinese Scholartree, Japanese Pagoda-Tree, Pagoda-Tree |
| Plant part used         | Flower bud                                                                                                  |
| Product form            | Extract powder                                                                                              |
| Country of origin       | Thailand                                                                                                    |
| Product code (SKU base) | 81478-EXTD-SOJAP                                                                                            |

2. Composition and identifiers

INCI: Sophora Japonica Bud Extract

| INCI / COMPONENT             | FUNCTION             | CAS        | EC        | PROPORTION |
|------------------------------|----------------------|------------|-----------|------------|
| Sophora Japonica Bud Extract | Botanical ingredient | 90131-19-4 | 290-329-8 | 100 %      |

EU CosIng reference no.: 58313 · INCI status: Verified in CosIng

Where more than one CAS number is shown, the botanical substance is registered under several CAS numbers (e.g. EINECS and TSCA variants); all refer to the same INCI name.

3. Manufacturing

|           |                                                                          |
|-----------|--------------------------------------------------------------------------|
| Process   | Hydro-alcoholic extraction                                               |
| Additives | No added colours, fragrance or preservatives unless stated on the label. |

4. Typical properties

|                     |                                                                           |
|---------------------|---------------------------------------------------------------------------|
| Physical state      | Solid (powder)                                                            |
| Appearance / colour | Characteristic of the plant material; may vary naturally between harvests |
| Odour               | Characteristic                                                            |
| Solubility          | Water-dispersible                                                         |

Typical values describe the product type and are not a specification. Batch-specific results (assay, moisture, microbiology, heavy metals as applicable) are given on the Certificate of Analysis, available on request.

## 5. Applications and use

|                     |                                                                                                                                     |
|---------------------|-------------------------------------------------------------------------------------------------------------------------------------|
| Applications        | Herbal tea & infusions, Skincare, Supplements                                                                                       |
| Markets             | Cosmetics & personal care, Food & beverage, Nutraceuticals                                                                          |
| Suggested use level | Use according to the formulation; typical inclusion in cosmetics 1–10 %, in food and supplements as permitted by local regulations. |

The formulator is responsible for confirming suitability, stability and regulatory compliance of the finished product in the intended market. Not intended for direct medicinal use.

## 6. Packaging, storage and shelf life

|            |                                                                                                                                                                                 |
|------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Pack sizes | 225 g, 1 Kg, 5 Kg, Sample — bulk and custom quantities on request                                                                                                               |
| Storage    | Store in tightly closed original containers in a cool (below 25 °C), dry, well-ventilated place, away from direct sunlight, moisture, strong odours and incompatible materials. |
| Shelf life | 24 months from the date of manufacture in unopened original packaging stored as recommended.                                                                                    |

## 7. Documentation and quality

|                         |                                                                                 |
|-------------------------|---------------------------------------------------------------------------------|
| Safety Data Sheet       | SDS-81478-EXTD-SOJAP — available for download on the product page               |
| Certificate of Analysis | Batch-specific COA available on request                                         |
| Other documents         | Allergen, IFRA, origin and other statements on request, subject to availability |
